

As a user

I want to check my access level

So I can gain access to libraries of equal access level

As a user

I want to update / set my security questions

So I can recover my account if I forget my password

As a user

I want to create a new account

So I can become a new user of the website

As the server

I want to validate the users' login

So I can make sure the user is using the correct password and is allowed to access the website

As the user

I want to access my user account

So I can update the information

As an admin

I want to remove user accounts

So I can remove users who no longer are allowed to access the website

As an admin

I want to see all user accounts

So I can search for specific user accounts

Show Shared Library

As a user

I want to view a shared library

So I can see content that has been shared with me

Add Shared Library

As a user

I want to add content to a shared library

So I can share content with others

Show Global Library

As a user

I want to view the global library

So I can see content shared with everyone
